

## FARMERS' ALMANAC'S WINTER 2019

### Make Sure You're Not Slipping Through The Rain

A Mild Winter With More Rain Than Normal With Some Snow

*"Contrary to the stories storming the web, our time-tested, long-range formula is pointing toward a warmer and rainier than normal winter. The coldest periods will occur in mid- to late December thru mid- to late March. We stand by our forecast and formula, which accurately predicted the many storms last winter, as well as this summer's steamy, hot conditions."* – Farmer's Almanac Editor Peter Geiger, Philom.

Since the Almanac is right 80% of the time, we suggest you make sure your car is ready for the upcoming season!

Don't Put it Off – Keep Your Car Dependable and Ready!
